Silent Practice

The following silent keyboard can be used to practice piano pieces when you do not have a piano, keyboard, or roll up piano to use.

Simply place your finger on the picture of the note that you would use to play the melody. You can sing each note that you silently play. You can also use these sheets at the real piano and add C Major (C, E or C,E,G) and G Major (G,B, or G,B,D) chords with the left hand in different rhythms.

Draw a line from the letter name of the note, to the matching keys on the piano. Have fun! Use a different color pencil for each note if you like. If you are afraid of making a mistake, first draw the lines using a pencil with an eraser.

Student _____
Date _____

Draw a line from the letter name of the note to the matching notes on the piano. If you need to look at the picture of the piano with the letter names of the notes as a guide, use a print out from one of the previous pages as a guide. Remember that a sharp is usually the black key to the right of the note and a flat is usually the black key to the left of the note. Have fun! Use a different color pencil for each note if you like! If you are afraid of making mistakes first use a regular pencil with an eraser.
